Playoffs rules (Starts 10th October 2021):

1) Normal format of dream11 continues.
2) For the second part of the game, we are going to pool **50** rupees per match in playoffs. That means for total of 4 matches 200 rupees will be pooled.
3) With 5 people that amounts to **1000** rupees.
4) This 1000 will be distributed based on the coins you accumulate during the course of the game.
5) The second format of the game is Winner Prediction. Predict the winner for the day's game.
6) After creating your team, before the start of the match, you have to predict who among us is going to earn rank 1 and rank 2 in the normal format of the game.
7) If you do not predict then both predictions are your name by default. You can even predict same name for both positions.
8) In case of any tie in the ranks, any of the winners in that rank will be considered.
   a. If there is a tie in rank 1, all rank 1 players will be considered as rank 1 and rank 2. If there are two rank 1 players then the next rank will be rank 3 and not rank 2.
   b. If there is a tie in rank 2, all rank 2 players will be considered as rank 2.
9) If you do not create any team, you will get 0 coins for predictions.

10) Let's take a random example,

Contest 49 KKR vs SRH:

Before the start of the match, the predictions are as follows:

Player	Prediction rank 1	Prediction rank 2
Anantha	Jayanth	Justin
Jayanth	Sampath M	Anantha
Justin	Rapaka	Sampath M
Rapaka	Anantha	Sampath M
Sampath M	Did not predict	Did not predict

The actual results of the match:

Rank 1	Sampath M
Rank 2	Anantha
Rank 3	Rapaka
Rank 4	Jayanth
Rank 5	Justin

11) Coins table for player prediction:

Number	Scenario	Coins earned (B)
1	Rank 1 and Rank 2 both winners correct and positions correct	25
2	Rank 1 is correct (only)	11
3	Rank 2 is correct (only)	5
4	Both winners are correct but positions wrong	7
5	One winner in the prediction is correct but position wrong	3
6	Both the predictions are wrong	0

12) Total winnings for the match:

Player	Coins Earned
Anantha	0 (scenario 6)
Jayanth	25 (scenario 1)
Justin	3 (scenario 5)
Rapaka	7 (scenario 4)
Sampath M	11 (scenario 2)

13) The total pool of 1000 will be distributed based on the total coins collected at the end of the 4th match/finals. The coins earned are the ratio for the distribution.

14) For example, after the finals, 1000 will be distributed as follows:

Player	Coins (after 4 games - Example)	Amount
Anantha	75	421.35
Jayanth	3	16.854
Justin	22	123.59
Rapaka	28	157.30
Sampath M	50	280.9
	Total	**1000**

In short (Important):
1) Create the team.
2) Predict 2 winners among us for the match in WhatsApp before the match officially starts.

All the best for playoffs people!!! 😎😎😎

Go RCB! 😎
